ABOUT US

Alberta AG Centre is a full-line CLAAS dealership with locations in Crossfield, Coaldale, Dunmore, High River, Lougheed, and Stettler. We offer the entire North American lineup of CLAAS equipment along with other great product lines to meet the demands of the Albertan agricultural industry. Each store features a full stock of parts, a knowledgeable sales team, and a complement of factory-trained technicians.

OUR VALUES

COMMUNITY

We take pride in our identity as a local Albertan dealer, as we strive to connect with customers across the province through education, service, and community involvement. Our goal is to form long-term relationships with every producer who comes through our doors.

QUALITY

We're dedicated to providing quality products designed for performance and longevity, paired with service conducted by experienced and knowledgeable mechanics and technicians. All new equipment and fully reconditioned used CLAAS equipment are backed with a no downtime guarantee.

INTEGRITY

We're committed to offering service that models integrity through honesty and attentiveness to each customer's needs. It's our pleasure to see local producers maximize their bottom line without sacrificing what they value most.

Full Job Description

Parts Technician – All locations

WHO WE ARE:

Alberta AG Centre is a full-line CLAAS Dealership with locations in Crossfield, High River, Stettler, Lougheed, Dunmore and Coaldale, Alberta. We offer the entire North American lineup of CLAAS agriculture equipment along with other great product lines to meet the demands of the Alberta Agriculture Industry. Each of our stores features a full stock of parts, a knowledgeable sales team, and a competent team of factory-trained parts and service technicians. This role is based in one of the 6 locations as mentioned above in Alberta.

Hours of work:

Monday to Friday 8:00 AM to 5:00 PM w/ a 1 hour unpaid lunch break

Seasonal Overtime and on-call

Job Summary:

The Parts Technicians are responsible for assisting with the daily operations of the parts department including delivering optimal customer service and parts knowledge to internal (Sales and Service departments) and external customers. This position performs a variety of duties, including providing price quotations, checking inventory for product availability, providing delivery dates to customers, verifying prices, and maintaining supplier relationships.

Main Responsibilities / Tasks:

This list of duties and responsibilities is not all inclusive and may be expanded to include other duties and responsibilities, as management may deem necessary from time to time.

Provide customer service to both internal and external customers to meet their parts needs in alignment with the company's parts protocols and processes

Receive parts requests from customers in person, through the internal Order Confirmation Process, by phone or email and respond with a quote or information in a timely manner

Receive, provide, and issue purchase orders and receipts of goods

Research availability of parts, either within the facility or from other resources as necessary

Search part numbers using a computer or standard catalogue

Mark materials with identifying information to communicate parts allocations to service work orders

Maintain communication with Shipping/Receiving, suppliers and customers to ensure efficiency within the parts department

Complete all applicable inventory, work orders, PO's, receipts of goods entry and put stock away

Participate in required inventory cycle counts and provide back-up support to other parts department employees as required

Process a variety of reports in written and electronic form (e.g., requisitions, paperwork, reports, etc.) to distribute information and/or materials to appropriate parties

Assist the Sales and Service Departments in scheduling by meeting regularly to communicate status of parts orders

Other duties as assigned by your manager

On-call coverage as required

Local travel required to pick up and deliver parts may be required

Job Requirements

Physical Requirements:

Stand/Walk for 8+ hours

Squat, bend, kneel, reach, twist, and use of ladders and stairs

Lifting up to 50lbs/23kg

Carrying up to 50lbs/23kg

Competencies and Qualifications:

Journeyman Parts Technician Certificate

3-5 years in an Agriculture parts/and or service environment

Strong computer skills including Microsoft office

Mechanical aptitude or previous exposure to Agriculture parts

Utilize computer to research parts and technical information

Maintains current knowledge of company competitive products

Strong verbal and written communication skills and demonstrated ability to work well with individuals inside and outside of the organization.

Maintains a clean work area and performs work in a neat and orderly fashion

Follows all safety rules and regulations in performing work assignments

Completes all reports and forms required in conjunction with work assignments

Accounts for all time and material used in performing assigned duties

Ability to read and interpret documents pertaining to parts and equipment

Detail oriented individual with a strong work ethic and positive team attitude

Forklift Experience considered an asset

CDK Intelli -dealer experience considered an asset.

Valid Driver's license

Ability to commute/relocate:

AB: reliably commute or plan to relocate before starting work (required)

 LOCATIONS

SERVICE DEPARTMENT

YOU CAN COUNT ON US TO LISTEN TO YOUR CONCERNS AND PROVIDE YOU WITH THE PRECISE SERVICE THAT YOU NEED.

Our expertly-trained, highly experienced and well-equipped service technicians are here to make sure your operations run smoothly. With our fully stocked parts department and mobile service trucks on standby, we'll be with you in next to no time, whenever you need assistance. We are here to make sure your CLAAS, Bush Hog® or Degelman equipment keeps getting the job done, season after season.

We are proud to provide quality service in the Crossfield area.

SCHEDULE SERVICE

Reliability is critical when you invest in the machinery you need, and we have the tools and experience to get your agricultural equipment and more in prime shape. Give us a call at (587) 747-5090 and we'll be happy to help you over the phone or assist you in making an appointment. We'll get you in and out of the shop in an efficient and timely manner, so you can get back to work.

Call, visit, or contact us today. We're here to help.

PARTS DEPARTMENT

QUALITY PARTS, WHEN YOU NEED THEM.

After our service technicians determine the best solution to suit your needs, our Parts Specialist will expedite the delivery of the appropriate part. Alberta AG Centre takes advantage of the CLAAS Parts Logistics Centre & CLAAS Academy in Regina, meaning we can get you quality parts in the shortest possible time. We have the parts you need, when you need them.

LUBRICANTS

CLAAS offers a wide range of lubricants intelligently tailored and adapted to your CLAAS machine.

CLAAS AGRIMOT

CLAAS AGRIMOT engine oil supplies your machine with exactly the right kind of lubricant it needs. With the special mixture of base oils and selected additives, your engine is protected against corrosion, wear, deposits and oil foaming.

CLAAS TRACTOR OILS

CLAAS offers high-quality lubricants especially for tractors that increase their lifetime and availability. CLAAS AGRI UNIVERSAL is a multifunction oil for all engines, gearboxes and hydraulic systems in CLAAS tractors. Its universal character means that it can be mixed with other oils, which in turn, saves space and storage costs.

CLAAS AGRIGREASE

In order to maximize the service life of your machine, the right care is essential. CLAAS AGRIGREASE provides you with optimum lubrication for all rotating parts during operation.

CLAAS AGRISHIFT

CLAAS AGRISHIFT was developed to provide your machine's gearbox with optimum protection. The base oils selected, in combination with special additives, allow optimum lubrication, improved protection against wear, optimized wear ratios and longer oil life.

CLAAS AGRIHVD

CLAAS AGRIHVD was specially formulated for the needs of the hydraulic systems of agricultural machinery to form a smooth lubricating film. As a result, all parts that roll and slide on top of one another function perfectly, and are also protected against corrosion, wear, deposits and oil foaming.

ORDERING PARTS

To get the parts you need for your tractor or other agricultural equipment, you can always give us a call at (587) 747-5090, come on in, or send us a Parts Request.
